

**NEWS OF THE MORNING.**

On Monday John Whitmore, a convict in the California State Prison, made an assault with a heavy smoothing iron upon Henry Diedrich, a fellow convict, knocking him down and fracturing his skull. He then threw the iron at him and inflicted another dangerous wound on the back of the head. He then cut his own throat from ear to ear with a penknife, and died instantly. A freak of insanity was the supposed cause.

Yesterday the Electoral Commission wrestled with the Louisiana dispute yesterday.

The Pope is reported to be displeased at the reply of the Cardinals at the resumption of the Vatican Council.

At the telegraphers' ball, held in Chicago Monday night, the music was transmitted over wires by means of Eliza Gray's telephone, from Milwaukee, with great success. The wires were run into the several newspaper offices, and caused great delight to those to whom it was a novelty and wonder.

The General Freight Agents have fixed temporary rates on freight through from Chicago to Liverpool, which are an advance of five cents over those heretofore prevalent. They are on the basis of 52 cents for wheat per 100 pounds, and 53 cents for corn.

British Columbia wants to secede from Canada.

Captain General Comptos telegraphs that the Cuban insurrection will be suppressed by May, when he will return to Spain.

The funeral of John O'Mahony, the late Fenian chieftain, took place in New York yesterday. After a requiem mass in St. Francis Xavier Church, the remains were taken to the steamer Dakota, escorted by the Irish societies of that and neighboring cities. The church and the streets through which the procession moved were crowded with spectators.

Deaths from want are reported near Madras. The numbers receiving relief have further decreased to 40,000 in Madras and 25,000 in Bombay.

The trial of the suit of Henry H. Bood against Samuel J. Tilden was begun in New York yesterday morning in the special term of the Superior Court. Plaintiff sues for a co-partnership accounting on a pool in railroad stock in 1864 and for \$260,000, which it is alleged defendant was over-paid under a misapprehension as to the profits.

Judge Wallace yesterday in New York in the United States Court, denied the motion made Monday in the Emma mine suit to dismiss the complaint on the ground that the plaintiffs had not produced evidence to maintain their case.

**THE COURT.**—The decision of the Commission in regard to Florida stands, and the Joint Convention proceeded with the count. Georgia came next with eleven votes of Tilden and Hendricks; next followed in succession the State of Illinois, with twenty-one votes for Hayes and Wheeler; Indiana, with fifteen votes for Tilden and Hendricks; Iowa, with eleven votes for Hayes and Wheeler; Kansas, with five votes for Hayes and Wheeler; and Kentucky with twelve votes for Tilden and Hendricks. Louisiana was called, objection was made, and the case turned over to the Commission.

**THE MAY RACE.**—It was decided at a meeting of the Sacramento Jockey Club, held last Saturday night, says the Bee, that entries for the great four mile running race should close on the 21st of this month. The race is to take place May 19th and nominations will close May 1st. The track being so much better, and all other conditions more favorable, there is no doubt that the race at Agricultural Park will be the most interesting four-mile contest ever witnessed in California.

**YIELD OF THE MINES.**—The daily yield of ore of the leading Comstock mines for the past week has been as follows: Belcher, 75 tons; California, 550 tons; Consolidated Virginia, 255 tons; Chollar-Potosi, 115 tons; Justice, 375 tons, and Ophir, 15 tons. Total, 1,415 tons.

suggested:

All ore, tailings and mineral-bearing materials of whatever character shall be assessed for purposes of taxation for State and county purposes in the following manner: On all ore, tailings or mineral-bearing material, the gross yield or value of which is \$12 per ton and less, there shall be deducted the sum of 90 per centum of such gross yield, return or value. On all ore, etc., the gross yield or value of which is over \$12 and under \$30 per ton, there shall be deducted 80 per centum of such gross yield, value or return. On all ore, etc., the gross yield or value of which is over \$30 and less than \$100 per ton, there shall be deducted from such gross yield, value or return, 60 per centum. On all ore, etc., over \$100 per ton, there shall be deducted 50 per centum of such gross yield, value or return. The remainder shall be deemed the net proceeds, and shall be assessed and taxed as provided for in this Act.

Controller Hobart is credited with the statement that under this law the revenue from the bonanza mines would, on last year's basis, by some \$58,000 less than last year, but that with the passage of the law a levy of seventy-five or eighty cents would be sufficient for the ensuing year, while without it an increased levy would be required or authority would have to be given to him to borrow money, or possibly both.

**THE LEGISLATURE.**

**What Was Done in Carson Tuesday.**

**Senate.**

The following bills were approved by the Governor:

Obliging slaughterers of cattle to keep the hide and head ten days for inspection; amendment of the School law; for building a bridge across the Truckee at Reno; establishing a jail at Silver City.

**Assembly.**

A message was received from the Governor signifying his approval of the bill regarding the sale of opium and punishing the keepers of opium dens.

**BILLS INTRODUCED.**

By Beer—Repealing Bergstein's law and establishing a Board of Physicians to pass on the qualifications of doctors holding diplomas.

By Stewart—Establishing an asylum for the insane.

By Moore—Restricting the powers of the Board of Pardons.

The bill prohibiting the issuance of free passes by railroads was ordered engrossed.

**THE DEPUTY WARDENSHIP.**—The Enterprise understands from a very reliable source that General Bitterman, as Warden of the State Prison, will appoint Captain J. H. Matthewson his deputy. A better selection could not have been made. With these two gentlemen at the head of that institution there will be no occasion hereafter for committees of investigation.

Captain Matthewson, of Storey, was appointed Deputy Warden of the State Prison, yesterday.

The impression is gaining ground that Henry M. Stanley, the Herald's African explorer, has been guilty of a crime no more serious than lying. The horrible massacres of helpless Africans with which he credits himself in his letters are said to be mere fictions. The question, however, is whether a man who can evolve massacres from his inner consciousness cannot also produce in the same manner lakes, rivers, mountains, and even Livingstones if necessary.

**RAIN GAUGES.**—The Central Pacific Railroad Company's Engineers' Department is having constructed at the railroad machine shop 75 rain gauges for the new stations along the line of the road. All the old stations already have them, to measure the fall of rain.

The Virginia printers have challenged the lawyers, doctors, clergy men or other professional class to a spelling match. As yet there is no response.

Four members of the German Military Band left the organization at Virginia City, and will hereafter remain there or in San Francisco.

BILLY FLORENCE is credited with saying that the man who pleases San Francisco critics has nothing to fear from the press of the United States.

MISS JEFFREYS-LEWIS is the next star at the California Theater, San Francisco. Then comes Neilson and then Boucicault.

SEVERAL cases of diphtheria and scarlet fever are reported in Truckee.

the San Francisco Bulletin says:

The city of Sacramento has, during the past two years, done much toward regaining its old position as a live business place. Three years ago almost every third house was vacant. Real estate was depreciated and dullness pervaded its very atmosphere. Now all is changed. Houses are in demand, and real estate has appreciated in proportion. The citizens of Sacramento have taken advantage of the opening offered by manufacturing industries. Two of the largest and best appointed carriage factories on the coast have been located there. The importation of Eastern wagons and carriages have sensibly diminished. The ratio of decrease bids fair to be augmented in the future. The field is as inviting in the manufacture of agricultural implements as in that of wagons and carriages. On bulky goods, such as headers, thrashers, cultivators, etc., the freight charges from the East to California average about 25 per cent. of the market value of the articles. And there is to be added the cost of the boxes or cases in which the machines are packed to secure them from injury. The cost of importation is all in favor of the California manufacturer. Another important matter is that these home industries give employment to those working among us, thereby keeping the money in circulation in California instead of sending it out of the country.

**JANUARY PASSENGER STATISTICS.**—The January returns of the through passenger movement on the Central Pacific Railroad have just been furnished to the press. It is a little singular that these railroad reports can not be made earlier in the month. As usual, the movement last month was light. There is very little pleasure in traveling now in the country in mid-winter. The arrivals and departures overland and by sea, to and from San Francisco, last month, were as follows:

	Arrived.	Departed.
By rail	2,751	1,475
By sea	1,073	1,198
Total	3,824	2,673

The figures show a net gain of 1,150, which is the smallest for that month in five years. For the corresponding month last year, the net gain was 2,500, against 1,909 in 1875 and 1,400 in 1874. Notwithstanding this unfavorable commencement, we look for a larger European immigration this year than we had in 1876.

**COFFEE CULTIVATION.**—Several gentlemen of this city have taken the necessary steps to introduce the cultivation of the South American coffee plant in this region. They will plant the seed in pots and as fast as the plants become of sufficient size for transplanting will distribute them among those who desire to make experiments in the cultivation of the berry. Seed coffee comes in pods, the two berries of commerce being partially united under one covering, and it is quite expensive, the price being \$8 a pound. A pound and a half of seed coffee is required to make a pound of the coffee of commerce, which is worth about 16 or 15 cents in this market. The experiment in coffee culture now being commenced will soon demonstrate whether the Sacramento valley foothill lands are favorable for the production of the plant. If, as many believe, climatic and soil conditions are both favorable, a new, extensive and profitable field of industry will soon be opened.—Sac. Bee.

**MARDI GRAS.**—They are holding high carnival in the South. The telegraph gives this account of it at Memphis:

The King of the Carnival arrived at 2:15. His Majesty was mounted on a live elephant and his baggage train, consisting of ten live camels, was escorted by a long line of retainers and members of the royal household. Conspicuous in the procession was an immense golden crib, with a well-grown baby snugly ensconced therein, to whom the King delivered the key of the city. After receiving it in the usual form he was proclaimed the baby king of every household. The King was saluted with a hundred guns, and bands of music from St. Louis and Louisville, with the Chickasaw Guards and Bluff City Grays, attended the municipal authorities. Fully 20,000 persons witnessed the ceremonies. The city was crowded with visitors. All the leading illustrated papers have representatives here.

A Mr. Clough of Washoe county, Nev., has been in this county recently buying beef cattle. He bought quite a number from John McGahey near this place.—Modoc Independent.

Snow is again falling in the Sierras, but not in sufficient quantities to inconvenience the overland trains.

**NOTICE.**

TO JAMES, OR JAMES H. WEST—TAKE NOTICE—You are hereby notified that the co-owners with you in the claim known as Blackhawk Mining Claim, situate in Payette Mining District, Washoe county, Nevada, located in the month of February, A. D. 1875, have worked the same in accordance with the United States mining laws so far as their interests are concerned. Now therefore, you are hereby notified to come forward and contribute your pro rata in accordance with the requirements of the United States mining laws, within ninety days from the first issuance of this notice, otherwise the your co-owners will avail themselves of your rights as granted them by the United States mining laws, approved May 18th, 1872, Section 230 (8).
